

Benefits of reading book in Digital era

Written by Mariam Abbas

Reading books in digital era is a wide range of tradition advantages and possibilities of modern technologies. In the past, the reading book play crucial role to understand and sharing the idea. The people use the method of reading books to understand the new ideas imagination and skills. With the help of reading books the people learn about the culture and society. When the people have many problems in life, they find the solution in the books.

Reading books have a powerful effect on the people and society. With the help of reading books, the people learn and understand betterly. For the students, the reading books help in study, Explanation creative skills and communication skills. For the society, the reading books give the more information about

all over the world such as news, Emergency situation etc.

Reading books make the people feel relax, reduce stress and overthinking. Reading books help to connect the people all over the world.

Being away from the books, the negative effect depends on it. The students spend more time on TV and Computer they loss the reading habit, they need more focus on the study in a school time, actually they have less time to do study then the face the difficulties.

At the end, reading books is a good habit and also a part of our life. Being reading books we become a good writer and good person.
